- The patients we serve are comprised of 26% Medicare, 29% MaineCare, 29% private Insurance and 16% uninsured.
- We provided sliding fee discounts and other supports in excess of \$92,935 supporting 27% of our patients who fall at or below the 2023 Federal Poverty guidelines

A little about how we measure up:

- EHC continues to maintain NCQA Certification for the Patient Centered Medical Home Model and reports regionally & nationally on many quality of care measures each quarter.

Here are a few of those quality measures:

- Diabetic Blood Sugar control: 86% have blood sugars in therapeutic range
- Statin therapy for Prevention of Cardiovascular Disease: 76% of our patients
- Cervical Cancer Screening: 71% of our patients have had Cervical Cancer Screening

A few things that we are proud to share from this past year:

- EHC is in growth mode. We continue to add new patients every day!
- We continue to build our care management services to support patients beyond the provider visit.
- Our Community Health Workers assisted nearly 500 patients with Sliding Fee Scale enrollment, accessing support services, health education and wellness promotion, and enrollment into insurance plans.
- EHC remained an essential community provider for Pandemic testing, vaccination, and care.
- We are now distributing free produce monthly in both Eastport and Machias to community members.
- We welcomed Robert Phares, MD; Fred Hartman, MD, and Sandra Manship, CFNP to our team.
- We opened our new EHC Machias building in July 2023 and are planning a new EHC Eastport facility!
